MAGMA

Metal

 **PIONEER®**
METAL COMPOSITE PANEL

Volcanic aesthetics with durable & modern designs

Design isn't just seen—it's experienced.
Presenting surfaces that shape light, define space, &
build enduring identities.

Introducing the **Magma metal** by **Pioneer Panels**—a bold evolution in surface design, made for those who create the future of architecture. This series brings together **deep-toned surfaces**, **refined textures**, and **exceptional outdoor durability** to support even the most ambitious design visions.

Each shade in this collection is engineered not just for visual appeal but for **lasting performance** in real-world conditions. these panels resist time, weather, and trends—allowing architects to build with confidence and creative freedom.

From serene whites to expressive earth tones, every panel is a dialogue between **material honesty** and **aesthetic sophistication**. Rooted in technical excellence and driven by design. the Magma metal Collection reflects the architectural spirit: **bold, enduring, and unapologetically modern.**

S.R.NO.	PARTICULARS THICKNESS	PANEL THICKNESS	ALUMINIUM ALLOY	TYPE OF COATING	COATING THICKNESS TOP COIL
1	4PPR	4MM	AA 3003/AA 3105 / AA 5005	FEVE/PVDF	35µ ± 5µ
2	4PPR1	4MM	AA 3003/AA 3105	PVDF	35µ ± 5µ
3	3PPG	3MM	AA 3003/AA 3105	PVDF	35µ ± 5µ
4	NEO HPL	6MM	AA 3003/AA 3105 / AA 5005	FEVE/PVDF	35µ ± 5µ

Engineered for strength, designed for impact the Magma Metal Collection redefines architectural surfaces.

A crisp, commanding white—ideal for clean-line elevations.

PMM1001 | STORM WHITE

A bold, contemporary grey perfect for modern façades with depth and contrast.

PMM1002 | STORM GREY

A grounded tone that echoes contemporary earth-inspired palettes.

PMM1003 | STORM COTA

Rich and resolute—crafted for bold volumes and urban forms.

PMM1004 | STORM COPE

 bold metals crafted for modern facades.
Where strength meets sophistication, 

Strength of stone, elegance of design.

Cool, pure, and precise—made for minimal surfaces that matter.

PMM1005 | ICED WHITE

A deep, elegant brown with character—where structure meets soul.

PMM1006 | STORM BRONZE

*Dramatic and warm—adds sculptural
impact to modern facades.*

PMM1007 | BRONZE MAGMA

A fluid, serene hue that balances bold architecture with calm presence.

PMM1008 | OCEANIC MAGMA

Expressive and enduring—perfect for standout cladding details.

PMM1009 | BRASS MAGMA
