ABOUT **VIRGO**

passion
with excellence

Founded in 1993, The Virgo Group is one of the leading manufacturer companies of India having technical merriment rooted at the very zenith of its working hierarchy. Our diverse business interests include superior range of Laminates, Plywood, MDF, Aluminium ACP, PVC and Pharma. We showcase a range of world class premium products with uncountable designs, colors, textures, and finishes.

We are driven by our constant effort to maintain creativity, quality and innovation in all our businesses. We have over 50+ branches in major cities of India. With over 3500+ employees and 14 manufacturing plants, 33+ years of expertise, over 588+ distributor channel nodes, access to 45000+ retail outlets across India, a production capacity of 149+ million sq. m. of laminate annually, association with 24000+ architects and interior designers, 9700+ network fabricators across India.

We are honored with the certification of Indian Power Brand. With 33 years of expertise, we have committed ourselves to uphold the highest manufacturing standards. We are certified by many major regulatory bodies like: ISI, FSC, ISO, CE, GreenLabel Singapore, FICCI & many more

OUR VISION

"Virgo Group envisions becoming a global market leader by providing innovative, high-grade and Environment friendly products to our customers and radically improving their lifestyles while doing so.

As a conglomerate, we seek to develop long-standing business relationships with our clients to facilitate our mutual growth and expand to all corners of the world."

We are largest multinational manufacturer, marketer, and distributor of Laminates, Plywood and Aluminum Rolled Products in India, with more than a million square feet of manufacturing space. Virgo stands for best in quality products that are high on innovation, providing exceptional service and support to our customers.

MANAGEMENT

Virgo group has been leading the march towards innovation since its inception. This adherence to novelty roots from sound management and effective leadership brought upscale by its core team.

OUR **VIRGO** **LAMINATE**

virgo high pressure decorative laminates

Virgo high pressure laminates are available in over 600 designs, 100 realistic textures. These products are conducive to both vertical and horizontal applications including furniture, laboratories, medical instrumentation, bathroom cubicles, exterior facades and outdoor furniture. They also perform exceptionally well in high traffic areas such as hospitality, office spaces, healthcare, retail and commercial spaces.

Virgo has four laminate brands under its umbrella :

GENERAL PURPOSE LAMINATES

General Purpose Laminates are made of specially selected decorative papers & absorbent Kraft paper impregnated With Melamine Formaldehyde & phenol Formaldehyde Resin to be used on vertical & horizontal interior surfaces.

COMPACT LAMINATES

Compact Laminates is a solid grade, load bearing laminates with Vertical & Horizontal Application.

UV + HIGH GLOSS

Stunning clear surfaces, cutting-edge coating technologies to deliver a striking, contemporary look. UV+high Gloss provides a luxurious high gloss finish, including solid patterns and wood grains.

UV+high Gloss surfaces provide outstanding durability, which makes them suitable for vertical applications.

Spotless Laminates are developed using high-end resources that provide for super matt and soft to touch finish that assures a captivation appeal and an awe-inspiring display of peerless class. It can naturally resist fingerprints and bacteria growth due to its sound foundation. Abrasion resistance too is an admirable feature of Spotless due to which they become ideal for various interior application settings.

FIRE RETARDANT LAMINATES

Manufactured by treating specially developed papers with fire retardant chemicals to make them resistant to flames. These can be fixed in fire prone areas like the kitchen.

DIGITAL PRINTING LAMINATES

We manufacture Digital Printing Laminates by pressing metallic foil with Kraft paper core along with Phenol Formaldehyde Resin. These are ideal only for vertical application.

DOOR SKINS

VIRGO[®] Door Skin
LAMINATES

A simple and economical solution for dispenser door image. Choose from a wide range of themes that match the aesthetic requirements of different age groups and mind sets.

PVC LAMINATES

We facilitate huge variety of PVC Laminates for our customers. Acknowledged for their features like attractive design, weather and corrosion proof, termite and borer resistant, perfect finish, easy to clean, eco-friendly and high quality, these laminates are highly appreciated among our clients. 90° flexibility is what makes it last longer and helps in covering the edges giving it a finished look.

PVC 90° BENDABLE TECHNOLOGY

Don't you hate the harsh & cheap looking edges of kitchen cabinets, wardrobes, beds, etc?

Then sit back and relax, we have found a solution for this problem. Use our PVC 90° Bendable PVC laminates and forget the visible edgy joints. With 90° bend PVC laminates you can simply bend the PVC laminates and give your interiors a stylish & adorable looks.

You can simply use V-Groove Cutter by giving a groove of 0.3 mm to 0.5 mm for bending the sheet up-to 90 degrees.

Exterior laminates is all about durability with good looks. We at Virgo have mastered this concept and are one of the leading players in laminates industry. India experiences ever changing climates and diverse weather conditions beyond normal levels. To ensure high-end, smart and long-lasting solutions to all such outer influences Virgo Cladding brings to you these wall claddings which are designed to withstand these drastic climatic conditions. These claddings not only protect the exterior but also are visually impeccable.

MEET THE MULTIFUNCTIONAL VIRGO CLADDING

Virgo Cladding offers a range of application possibilities. It can adorn a myriad of external surfaces, giving a new personality to that space.

In traditional laminates, the base paper pattern does not match the surface texture. To get the natural effects of veneer, the design and surface texture should be in sync.

Syncro combines elegance and perfection to create an amazing experience where the texture of each laminate is synchronized with the decor paper pattern. A design you can see and feel.

OUR **VIRGO** **PLYWOOD**

perfection rewarded

Virgo is a name reckoned for superior quality products that are high on performance and quality. Virgo keeps a complete control over all aspects of the development procedure, in-house manufacturing & testing; assuring complete functionality of every product. We encourage adherence to safety standards, promote ease of application, strive to reduce installation time and help our customers to maintain their interiors better with usage information.

- **GENERAL PURPOSE PLYWOOD**
- **BLOCK BOARD**
- **SHUTTERING PLYWOOD CONCRETE**
- **CHEQUERED PLYWOOD**

General Purpose Plywood

Veneers from high logs are mechanically dried and they undergo stress relieving process, which are assembled in such a way to form a balanced construction. High quality fortified synthetic resins are used for gluing the veneers. glue line is poisoned by special formulations of chemicals to make Virgo Plywood safe against borers. It is hot pressed under proper temperature and more than 16 Kg/cm² specific pressure. Conditioning is done after pressing followed by preservative treatment.

Applications

Partition and paneling, ceilings in public rooms and corridors, floor underlayment, computer rooms, furniture, bus bodies, railway coaches, milk booths, sign boards, insert in panel doors, storage racks.

Block Board

These are made out of excellent quality plantation timbers. Logs are quarter sawn into Planks using SDR method, which are chemically treated and well seasoned before converting into battens in a multiple rip saw. Battens are sandwiched between two glued mechanically dried veneers and are pressed in hot press under accurate temperature and pressure. Quarter sawing of logs and proper seasoning of planks make it dimensionally stable and treatment of planks, poisoning of glue line and preservative treatment of finished block board make Virgo durable and safe against borers.

Applications

Cabinets, almirahs and other furniture, door partitions, shelves and other interior applications; roofing, fencing, and other external applications.

Shuttering Plywood Concrete

Virgo offers a high quality Shuttering IS : 4990, Concrete Shuttering Plywood. It is a multi functional product, which can be used in construction industry for buildings, bridges, heavy industry and structures etc. for use on walls, slabs, columns and beams etc. In Virgo Concrete Shuttering Plywood, compression is about 60% more as compared to ordinary Film Face Shuttering plywood available in market. Extra compression leads to better nailing and screw holding properties. Its load bearing capacity is also enhanced due to extra compression. It is manufactured by selecting quality veneers impregnated with modified RPF resin for longer life and better performance in all applications. Impregnation of resin in veneers is more than 30% to the weight of veneers.

Applications

Factories and buildings, sewer construction, construction of swimming pool, bridge construction, exterior and general shuttering work, beams and every construction and foundation job.

Chequered Plywood

Virgo offers a high quality Chequered Plywood and Aluminum Chequered Ply. It is a multi functional product, which can be used in panelling, flooring & decorative purpose etc. Extra impression leads to better ridges and long life holding properties. Its load bearing capacity is also enhanced due to extra compression.

Applications

Flooring, Panelling and Decorative purpose for Bus and Truck Body.

Density - 0.800 to 1.00 gm/cm³

Size : 2440 mm x 1220 mm x 12mm

Grade - BWP

OUR **VIRGO** MDF

craft with confidence

VIRGO MDF is a type of engineered wood that is made from wood fibers that have been compressed and bonded with a resin. It is a versatile material that can be used for a variety of applications, including furniture, cabinetry, and flooring. VIRGO MDF are manufactured in India's most advanced plant. Our eco-friendly approach does not compromise the quality of the products.

- **STANDARD MDF**
- **FIRE-RETARDANT MDF**
- **HIGH & LOW-DENSITY MDF**

Standard MDF

The most common type of MDF is used for general applications. It has a smooth surface and uniform density. Typically, this MDF is not moisture or fire-resistant and is suited for dry environments. Its versatile nature makes it ideal for a variety of uses.

Applications

Furniture, cabinetry, interior paneling, and partitions.

Fire-Retardant MDF

Treated with fire-retardant chemicals, this type of MDF is designed to improve resistance to fire. It meets specific fire safety standards and regulations, providing a higher level of fire protection. This makes it suitable for use in buildings where enhanced fire safety is a priority.

Applications

Areas requiring enhanced fire safety, such as commercial buildings and certain residential applications.

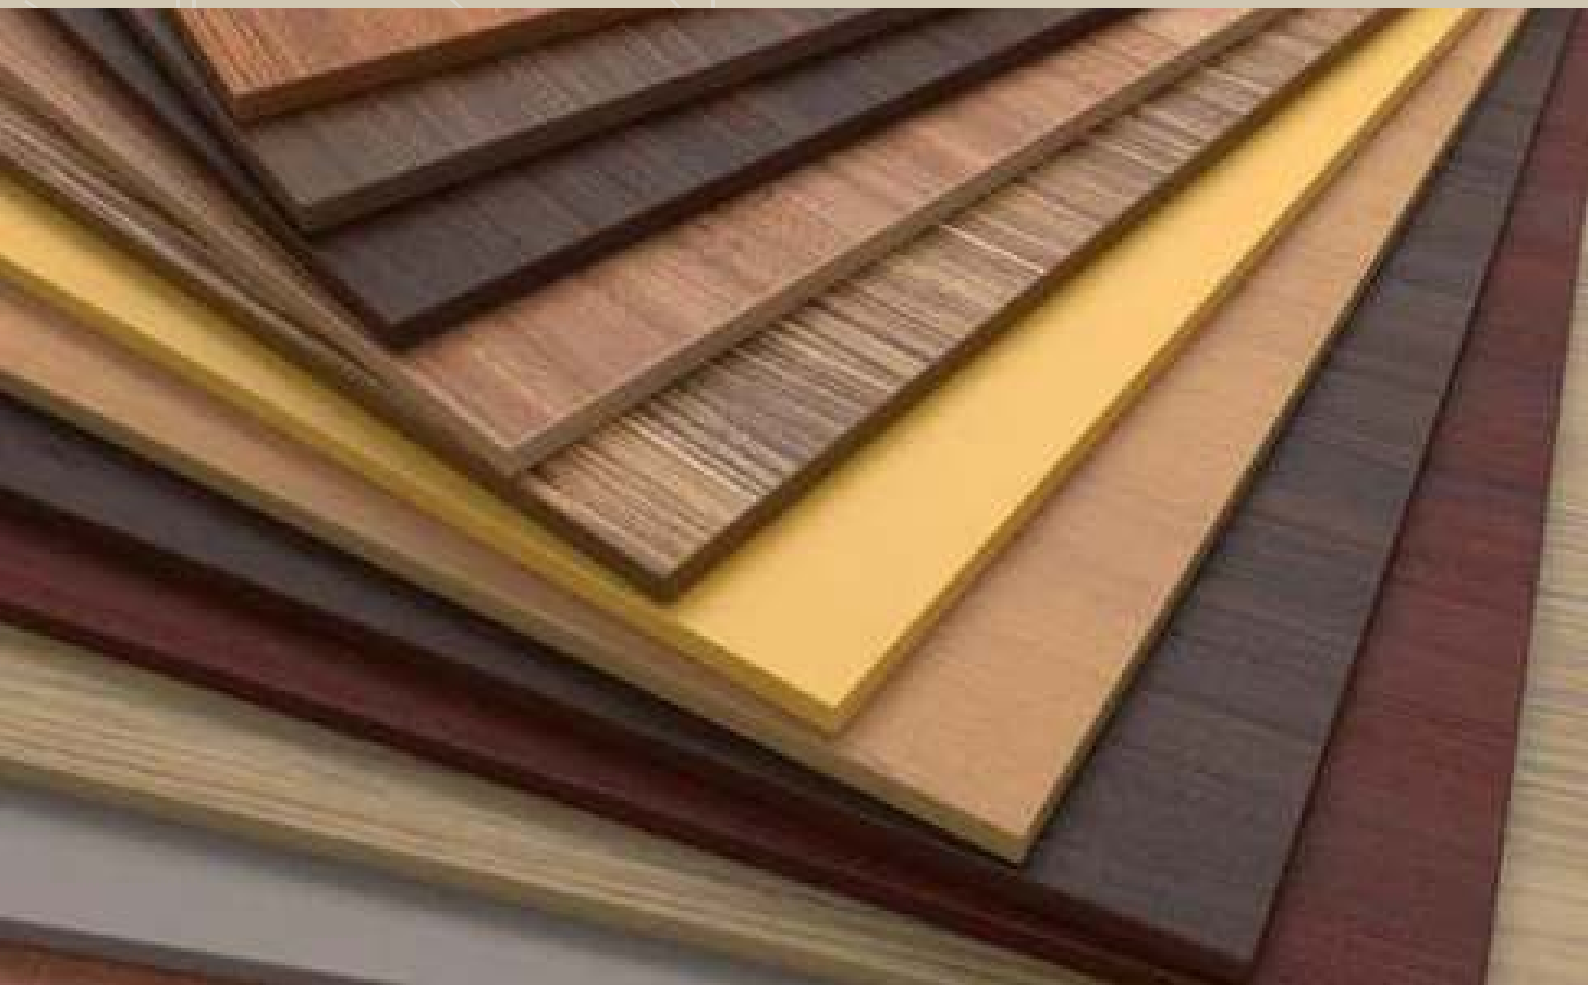

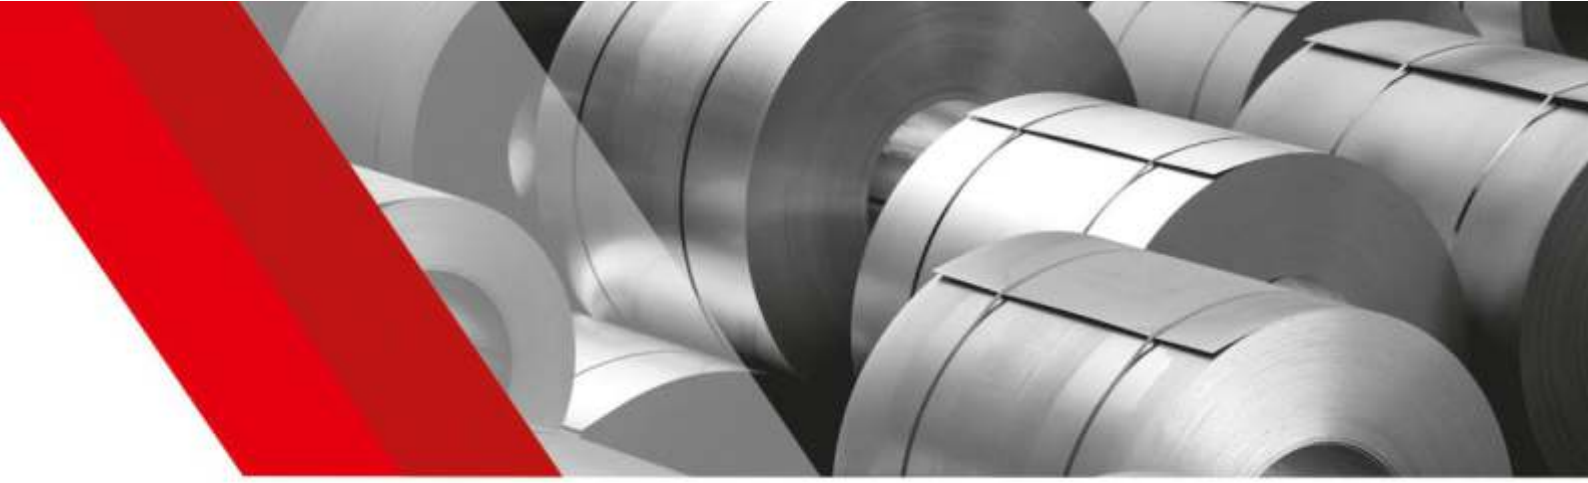

High & Low-Density MDF

High-Density MDF, with its increased strength and durability, is ideal for heavy-duty applications due to its resistance to impacts and wear. Conversely, Low-Density MDF is lighter, easier to handle, and less expensive, making it suitable for projects where weight and cost are more critical than strength.

Applications

High-Density MDF is ideal for high-use areas, heavy-duty applications, and situations requiring robust performance. Low-Density MDF is suitable for lightweight applications, such as decorative panels or areas where weight is a concern.

VIRGO[®]

ALUMINUM

Company Overview

Virgo Aluminium Limited was established in the year 1989 in Gujarat, India. We are a professionally managed manufacturer, exporter and supplier of aluminium products. We have varieties of products for our customers and clients. All our products are of premium grade. We endeavour to revolutionize in the industry by fabrication a wide gamut of quality products. The products of our company have gained us huge recognizance for its high strength, wear and tear resistance, flexibility, accurate dimension and durable finish. These products can be used for various applications in different sectors. We have successfully earned a huge client base.

Company Vision

Virgo Aluminum Gujarat aims at becoming the foremost choice for aluminum flat rolled products, setting new standards for reliability in domestic and global markets.

Company Mission

- Exceeding Customer Expectations
- Innovation as Standard
- Exceptional Quality
- Sustainable Environmental Practices
- Transparent and Ethical Business Practices

Aluminium Cast Coil

Our cast coils have uniform and bright surface finishes, moreover, they also meet all international standards for dimensional tolerances and metallurgical properties.

End Use Applications Re-rolling

Aluminium Coil

Engineered for precision, our cold-rolled aluminium coils stand out with their exceptionally consistent and smooth surface. These sheets are rigorously fabricated to surpass global benchmarks in both dimensional exactitude and alloy quality. Tailoring to diverse industry needs, we also offer bespoke solutions, adjusting alloy composition, mechanical properties, and surface treatment to precisely fit unique client specifications.

End Use Applications Architectural Transport Body Fan Blade
General Engineering Marine Printed Circuit Board Panel Electrical & Electronics
Insulation Ceiling Panels Dish Antenna

Aluminium Sheets

Our aluminum exceptionally flat sheets feature a smooth mill finish with precise dimensions, ensuring quality and consistency. Made to international standards, they are produced in various alloy compositions and mechanical properties, tailored to fit specific needs. This balance of customization and standardization makes our sheets versatile for diverse applications.

End Use Applications Architectural Transport Body Fan Blade
General Engineering Marine Printed Circuit Board Panel Electrical & Electronics
Insulation Ceiling Panels Caul Board Formwork

Color Coated Coils / PPAL

Our pre-coated / pre-painted aluminium is a versatile offering with applications ranging from facade to roofing across various architectural and engineering use cases. Our color coated coil is the most preferred among the top ACP manufacturers globally. Apart from the high-quality aesthetics that our coated coils offer, they add immense value in enhancing durability and long-term performance of the building envelope against the harshest environmental conditions.

Technical Specifications

- Alloys as shown in aluminium coils section.
- Width from 900 mm - 1270 mm
- Thickness from 0.1 mm - 0.7 mm
- Coating types PE / RMP / HDPE / PVDF / FEVE up to 4 layers
- Both side coating compatible infrastructure
- All colors and gloss levels (RAL and Pantone)

Aluminium Composite Panels

Virgo Aluminium is one of the largest ACP Sheet Manufacturers based in India and offers premium quality ACP panels in a visually striking palette of colors and textures. Ideal for external cladding, interior application and signage, the panels by Virgo ACP help create visual aesthetics that enhance the appearance of any space. Highly durable, stain-resistant, and weatherproof, these ACP sheets are the epitome of our creativity and hard work.

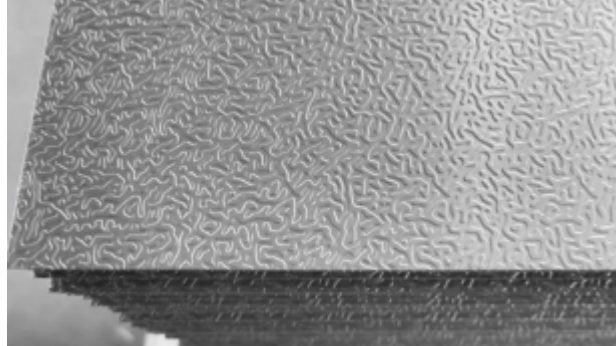

Aluminium Pattern Sheets and Coil

Patterned sheets are primarily used for flooring as they are anti-skid due to treads. Our pattern sheets have a high strength to weight ratio, good welding and forming properties. We supply this product in two different patterns – Five Bar and Diamond. Apart from standard specifications, we can supply pattern sheets in customized alloys and sizes.

Aluminium Stucco Embossed Sheets

Aluminium Stucco Sheet is a lightweight and decorative sheet that can be easily formed into different shapes. It is used in construction, packaging, curtain walls, elevators and other various uses. Stucco is energy efficient and provides insulation for the building or home, helping to cut these costs. In addition to the practical reasons to use it, stucco also provides an aesthetic style to buildings.

Aluminium Roofing

We manufacture roofing sheets in mill finish as well as colored form with RMP, SDP and PVDF coating. Our roofing sheets are available in various profile shapes, such as circular corrugated and industrial troughed (trapezoidal). Aluminium roofing sheets are the preferred choice for roofing applications because they are light-weight, corrosion resistant and has a very high resale value compared with other roofing solutions like galvalume and asbestos roofing sheets.

Lami-Padding

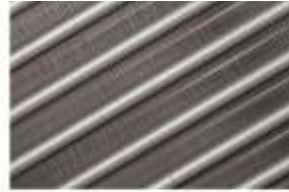

Virgo lami-padding is designed with precision by our r&d team to revolutionize the laminate industry. Our mission is to produce top-quality products with high innovation, exceptional service, and support for our valued customers.

For over four years, our team's continuous innovation has culminated in virgo Lami-padding, a product perfectly suited for the laminate industry. Virgo Lami-padding not only reduces costs but also supports environmental sustainability through its endless recyclability.

Aluminium Foil Stock, SRC & Fin Stock

SRC foils and fin stock are used across critical segments, we ensure our products exceed the quality expectations of each of our customers. With high quality engineering, our foils are manufactured to the utmost precision standards.

Cable Tape / Cable Wrap

Our cable tape stock meets all domestic and international standards and is used by most of the major cable manufactures globally. Being made from pure ingots and processed through our latest equipment, our product have excellent UTS, elongation and length requirements that meet the needs of the cable industry.

Multi-Slit Coils

Virgo aluminium multi-slit coils are very well suited to be used in heat exchangers and transformers. Made under our strict quality control systems and with cutting-edge equipment, our material meets all the domestic and international standards in terms of build-up, tolerances and other specifications.

GROUP PROFILE

DIFFERENTIAL BUSSINESS MODEL

A company having all parenteral solutions under one roof. This gives it the unique opportunity to leverage the same to become the leader in all the specialized parenteral solutions in its portfolio. This infrastructure will also be leveraged to enter into related and allied sterile solutions markets which offer significant opportunities globally.

VISION

- A Quality concerned and vision driven integrated pharmaceutical Company focusing on identifying, development & commercialization of pharmaceutical life saving drugs in 4 core therapeutic areas namely Fluid therapy, Critical care antibiotics, Ophthalmology and Respiratory on an opportunity - driven basis.
- One of the fastest growing Indian MNC pharmaceutical company across emerging markets, having vast range of products, and infrastructure to support all international norms and requirements.
- Also a preferred P2P manufacture for almost all top Indian MNC.
